## **FSE Engineering Group wins IMechE Mechanical Innovation Award Outstanding Contribution to the Mechanical Engineering Industry**

5 July 2022, Hong Kong - **FSE Lifestyle Services Limited** (“FSE Lifestyle” or the “Company”, together with its subsidiaries, the “Group”, stock code: 331.HK) is pleased to announce that one of our business units (“BUs”), FSE Engineering Group Limited and its member Young’s Engineering Company Limited (“Young’s Engineering”) has won the First Runner-up in the Mechanical Innovation Award for its self-developed semi-automatic overhead drilling machine at the Institution of Mechanical Engineers (“IMechE”) Prize Award Ceremony and Presentation held at The Hong Kong Polytechnic University on 28 June.

Mr. Rocky Poon, the Chief Executive Officer and Executive Director of FSE Lifestyle, said, “We are very pleased that our self-developed drilling machine system has been recognized by the expert international jury panel. Our innovative overhead drilling machine is called SkyDrillingMachine (SDM), mainly used for mechanical, electrical and plumbing installation in buildings. The development allows merit in time, cost saving and provide added advantages to safer, cleaner and attaining better quality to build over the traditional methods. The workflow and the tools are being continuously refined to improve the overall efficiency.”

“The ultimate purpose of innovation is to help create a smart future where people can enjoy the best quality of life possible. Creativity and innovation are the core values of FSE Lifestyle’s business development, we will continue to develop innovative devices and systems, striding ahead with our partners and stakeholders for the betterment of the society,” Mr. Poon continued.

Innovation has become an essential element of competitive advantage in today’s competitive society. The construction industry is increasingly reliant upon creative ideas and innovative solutions to deliver projects in an efficient, safe and green manner. Henceforth, the IMechE Hong Kong Brand Award and Recognition Sub-committee has been organizing the Mechanical Innovation Award since 2014, with the aim to recognize project works, including research and technical study, with significant contributions to the advancement of the mechanical practice in Hong Kong.
