

FSE Lifestyle Honoured at Hong Kong Green and Sustainability Contribution Awards 2026 for “Notable Organisation in Promoting ESG Disclosure Enhancement”

29 May 2026, Hong Kong – **FSE Lifestyle Services Limited** (“FSE Lifestyle” or the “Company”, together with its subsidiaries, the “Group”, stock code: 331.HK) is awarded the “Notable Organisation in Promoting ESG Disclosure Enhancement” accolade at the Hong Kong Green and Sustainability Contribution Awards 2026, organized by the Hong Kong Quality Assurance Agency (HKQAA), commending the Group’s dedication to optimizing its ESG and climate risk management frameworks by aligning with international and local climate-related financial disclosure standards, demonstrating a steadfast commitment to transparency and public disclosure.

Mr. Patrick Lam, Executive Vice-Chairman and Chief Executive Officer of FSE Lifestyle, stated, “We realize the profound impact that climate-related risks can have on operational continuity. In response, the Group has implemented adaptive measures to enhance service reliability during extreme weather events. Our overarching climate action strategy focuses on reducing our carbon footprint, adopting renewable energy, and embedding sustainable practices across all our subsidiaries.”

Mr. Lam added, “By engaging external consultants for qualitative climate scenario analysis, we are systematically assessing how physical and transition risks can affect our businesses in Hong Kong. Aligning with international and local standards allows us to establish stronger resilience against climate challenges, stipulate concise performance indicators, and ultimately ensure long-term operational stability alongside our environmental responsibilities.”

HKQAA launched the Hong Kong Green and Sustainability Contribution Awards in 2025 to recognize organisations’ collective efforts in creating a better living environment, promoting a low-carbon economy, and advancing ESG practices and sustainable community development. The Awards also encourage continuous improvement and talent and capability building, strengthening business resilience and sustainability performance while supporting the Government’s drive toward a green economy and a more livable city.
