FSE Lifestyle Services Again Honoured with ESG & Sustainability Awards of Excellence 2026 by Hong Kong Economic Journal
Integrating ESG into Leadership Development to Nurture Corporate Green Talent

5 November 2026, Hong Kong – **FSE Lifestyle Services Limited** ("FSE Lifestyle Services" or the "Company", together with its subsidiaries, the "Group", stock code: 331.HK) was again honoured the "Excellence ESG Corporate Award (Listed Company)" at the ESG & Sustainability Awards of Excellence 2026, presented by *Hong Kong Economic Journal* (HKEJ). This accolade recognizes the Group's deep integration of sustainability into its core corporate strategy and its outstanding performance in driving green transformation. The award presentation ceremony was held today, 5 November 2026, at the Grand Hyatt Hong Kong.

Mr. Patrick Lam, Executive Vice-Chairman and Chief Executive Officer of FSE Lifestyle Services, stated: "We have been actively participated in HKEJ's ESG assessment since 2023, and we are honoured to stand out once again this year to receive the 'Excellence ESG Corporate Award (Listed Company)'. This award is a strong affirmation of our team's continuous dedication in advancing our sustainability strategy. We believe that outstanding ESG management is the bedrock for enhancing operational resilience and creating long-term value. Looking ahead, the Group will continue to leverage technology applications and green solutions to create enduring shared value for our clients, employees, shareholders, and the wider community."

FSE Lifestyle Services is dedicated to embedding sustainability principles into its talent development and leadership training programs to foster a green corporate culture from within. The Group organized ESG workshops for participants in its Executive Development Programme (EDP) and Young Executive Training Programme (YETP). These workshops analyzed core ESG principles and their crucial connections to business operations and long-term community development, thereby broadening the sustainable vision of future leaders. Through practical learning and interactive exchanges with local resource recyclers, participants gained hands-on experience in sustainability practices, empowering them to integrate ESG thinking into their respective services and operational functions.

Mr. Patrick Lam continued: "As climate change and green transformation accelerate, the integrated lifestyle services industry faces new opportunities and societal responsibilities. FSE Lifestyle Services will continue to lead the industry by driving low-carbon transformation through smart upgrades and precision management. At the same time, we adhere to our 'people-oriented' philosophy, further expanding our community care and employee wellness initiatives. By embedding the ESG spirit into our services and daily operations, we aim to collaborate with all stakeholders to build a green and sustainable community."

ESG & Sustainability Awards of Excellence 2026 organized by *Hong Kong Economic Journal*, aims to recognize enterprises that deeply integrate sustainability into their core strategies and demonstrate excellence in green transformation and corporate social responsibility. The selection process employs "Valuelytics", an AI-driven data intelligence platform, to analyze data from companies' annual and ESG reports, combined with multi-dimensional evaluations by a judging panel composed of political, business, and academic leaders, making it one of Hong Kong's most authoritative and representative annual ESG events.
